Curriculum Vitae

Name : Farkhondeh Asadi

Email address: asadifar@sbmu.ac.ir

Address (office): School of Allied Medical Sciences, Shahid Beheshti University of Sciences, Darband St, , Ghods Square, Tehran, Iran

Phone (office): 00982122737474

Education (Academic Preparation)

Major	Degree	University	Country	Year
Health Information Management	PhD	Iran University of Medical Sciences and Health Care Services	Iran	2003
Medical Record Education	M.Sc.	Iran University of Medical Sciences and Health Care Services	Iran	1998

Academic Administrative Appointments

Position	Duties	Institution/ Location	Year
Head of Health Information Technology and Management Department	Managing of Department with B.S , M.S and Ph.D. students	School of Allied Medical Sciences, Shahid Beheshti University of Medical Sciences	2017

theses

Title of Thesis	Degree	Supervisor(s)
Comparative study of National Trauma Registration System in selected Countries: providing a suitable Model for Iran	PhD	Dr Alireza Zohor
Evaluation of Medical Records in hospitals affiliated Iran University of Medical Sciences	M.Sc.	Dr Ebrahim Sadaghiani

a. Teaching History

School	*Level	MAJOR	Title of Lesson
School of Allied Medical Sciences, Shahid Beheshti University of Medical Sciences	PhD	Medical Informatics	<ul style="list-style-type: none"> Health Information Health Data Standards Management Principles Health Informatics Research Methodology
School of Allied Medical Sciences , Shahid Beheshti University of Medical Sciences	PhD	Health Information Management	<ul style="list-style-type: none"> Evaluation of Health Care Information System Research Methodology, particularly in relation to Health Information System Health Information System Comparative Health Information Management Management of Information Networks International Nomenclature and Classification Systems Health Care Standards Advanced Technology on Health Information Management Quality Management and Improvement Methods Health Care Information Systems Management
School of Allied Medical Sciences, Shahid Beheshti University of Medical Sciences	M.Sc.	Medical Informatics	<ul style="list-style-type: none"> Health Care Data Coding and Standards Management Theories
School of Allied Medical Sciences, Shahid Beheshti University of Medical Sciences	M.Sc.	Health Information Technology	<ul style="list-style-type: none"> Research Methodology , , particularly in relation to Health Sciences Health Care Information Systems Management Evaluation Methods of Health Care Organizations Advanced Technology and Computer Health Information Management

			<ul style="list-style-type: none"> • International Nomenclature and Classification Systems • Management Theories • Electronic Health Records
School of Allied M Shahid Beheshti University of Medical Sciences	B.Sc.	Health Information Technology	<ul style="list-style-type: none"> • Medical Informatics • International Nomenclature and Classification Systems • Insurance and Reimbursement Systems • Information Storage and organizing • Health Information Management • International Classification Systems of Death • Health Information Management , particularly in relation to Crisis • Management of Health Information Technology Department • Management Principles • Research Methodology • Medical Terminology • Special Classification Systems of Diseases

b. Professional Service

Type of Service	Place	Year
Marketing Research Consultant	Tolid Daru Pharmaceutical Company	2003-2004
Iran group of surveyors(IGS) Consultant	Quality management consultant	2000-2004

d. Executive Positions and Appointments (Administrative)

Job Title	Site of Activity	Supervisor
health care Supervisor	Iran University of Medical Sciences	Health Deputy of Iran University of Medical Science
Medical Coding Auditor	Kosar group practice	Veterans Foundation

Honors and awards

Award	Place	Awarding body	Year
Standard expertise in Quality Management Systems	Industrial Researches and Standard organization	Head of Industrial Researches and Standard organization	2004
Exemplar Assistant Professor	Shahid Beheshti University of Medical Sciences	Boss of Shahid Beheshti University of Medical Sciences	2008

Membership in Professional Associations and Societies (Professional Memberships)

Name of Association
Quality Management Association
Hospital Association
Medical Informatics Association

Approved Projects and Proposals

Title	Place	Year
Study of Obstacles Health Information Management in hospital Affiliated by university of medical sciences in Tehran	School of Allied Shahid Beheshti University of Medical Sciences	2012
Survey of effect of Information and Communication Technology on economic growth in Iran	Islamic Azad University	2005
Information and Communication Technology (ICT) and employment in Iran economy	Labor and Social Security Institution	2005
Situation Analysis of Emergency Department (Imam Khomeini hospital)	Ministry of Health	2004
implementing and establishing of quality management system in Emergency Department (Chamran hospital)	Ministry of Health	2003
Reengineering and establishing of Emergency Process (Taleghani hospital)	Ministry of Health	2002
Reengineering and establishing of Health information management Department (Taleghani hospital)	Ministry of Health	2002
implementation of quality management system in medical record department (Bagiat Allah hospital)	Ministry of Health	2001
Estimating of aging patients health care costs	Social Security Organization	1999

Theses Directed, Supervised or Consulted

Title of Thesis
<ul style="list-style-type: none"> • A study of Rules, Regulation and Standard of SEPAS and SHAMS Project • Evaluation of HIS information model presented by Ministry of Health and Medical Education • The Evaluation of Iranian Electronic Health Record Project (Sepas) Based on Electronic Health Record System Specifications • Designing an Adult Model to improve Quality of coding • Designing a model for auditing of the Causes of Clinical coding errors • Designing object oriented Conceptual model of Asthma registry Software • A study of Mortality Reporting System In Iran • A Study of telesurgery Information Management System In hospital Affiliated to the Tehran Medical Sciences Universities • Developing an evaluation model for hospital Emergency department management information system software • Presenting an evaluation model for cancer registry software • A study of Nursing Management Information System in hospital Affiliated by university of medical science in Tehran

- Study on Policies Rules and Standards of the environment protection Agency's in the field of information Technology
- Study on Status of ICU information system at hospitals Affiliated to Shahid Beheshti university of medical sciences
- Study of management information system of the Health Information Management (HIM) department affiliated to hospital Shahid Bheshti university of medical sciences Tehran
- A Survey on Hospital-based Registry System for Eye Injury in Hospitals Medical Universities in Tehran
- Comparative study on performance of hospital applying the EFQM excellence model before and after the implementation of the model in hospital affiliated to medical universities in Tehran
- presenting an evaluation model for hospital Anatomical Pathology application(software)
- A Comparative Study of the Minimum Data Set for hospital information system in selected countries and implications for Iran
- Developing general framework for national health information network of Iran
- Providing an Architecture model of Summary Electronic Health record
- Development of a model for designing health websites structure
- The Usability Evaluation of Nursing Information Systems in Hospitals Affiliated to Medical Universities in Tehran
-
