July-August 2017 Reviewer of the Issue - Hans-Göran Tiselius

**Hans-Göran Tiselius**

---

Dr. Hans-Göran Tiselius was Born in Stockholm on 11th April, 1945. He got his medical degree in 1972 and then passed a PhD course in clinical chemistry in 1974. He got a certificate of specialty in general surgery in 1977 and specialty in urology 1979. He started as an associate professor of urologic surgeries from 1980 and became a professor of urology in the University of Linköping at 1992. He moved to the Karolinska Institutet, Stockholm) at 1999 and since 2011 is professor emeritus at the Karolinska Institutet.

Dr. Tiselius has been the secretary of the Scandinavian Association of Urology subgroup for renal stones from 1982 to 1984 and the chairman of the group mentioned above during 1985 to 1987. He has been the Managing Editor of Scandinavian Journal of Urology and Nephrology from 1989 to 1992; Member

of the Advisory Board of European Symposium on Urolithiasis during 1993 – 1997; President of the 6th European Symposium on Urolithiasis in Stockholm in 1995; Chairman of the EAU Health Care Office Working Party on Urolithiasis from 1997 to 2009; and President of the Advisory Board of European Urolithiasis Research from 1997 to 2009.

He has spent more than 40 years of his academic life on urolithiasis and has been involved in educational/training courses and conferences on urolithiasis including: Co-organizer of a Stone Course, Linköping, 1977; Co-organizer of a Minisymposium on Urolithiasis, Linköping, 1979; Co-organizer of the Swedish Urologic Association Meeting in Linköping, 1986; and Co-organizer of an International ESWL Conference in Linköping, 1986.

He has been Member of the steering committee of the International Society of Urolithiasis 1996 – 2008; Chairman of the EAU Guideline Group on Urolithiasis ( - 2009); Co-chairman of the AUA/EAU collaboration on guidelines on Ureteral stone treatment (2003-2008).

He has been an Honorary member of European Association of Urology since 2011; Honorary member of eULIS; and Honorary Member of the Swedish Association of Urology since 2012.

He has received awards for his activities on urolithiasis including: He received The Fernström award to young scientists in 1984; Curt Engelhorn Award, The European Foundation for the Advancement of Medicine , 1998; Honorary Award, Group of Urinary Calculi of Chinese Association of Urology, 2012; and Life-time Achievement Award, International Urolithiasis Society, 2016.

Dr. Tiselius has more than 200 original publications mostly in the field of urolithiasis.

The Urology Journal has benefited many times the sincere cooperation of Dr. Tiselius as a reviewer in the section of Endourology and Stone diseases. Dr. Tiselius was elected as the Reviewer of the Issue in the July-August 2017 issue of the Urology Journal by the journal editors for his valuable and timely review of manuscript.

Below we have provided his own feeling regarding contribution to the Urology Journal: “For every Journal it is of utmost importance to have reviewers that carefully can read and scrutinize the submitted manuscripts. It is accordingly both a pleasure and honour to have contributed in this regard to the Urology Journal.

The review process always has been a way to guarantee the quality of publications and has become even more important in the steadily increasing flow of submitted manuscripts.

Personally I have a clinical and scientific experience in urology since approximately 40 year and have spent most of my professional life with different aspects of stone disease and its treatment. In this regard my background in medical and clinical chemistry has been a great advantage.

Hans-Göran Tiselius MD, PhD

Professor emeritus of Urology, Karolinska Institutet Stockholm.”
